

Tree of Life Farm 2016-2017

USDA Certified Organic
since 2007

Winter Produce Delivery

The winter delivery consists of 5 months of Organic vegetables from our farm with some extra produce sourced from other local organic farms. Bushel or Half bushel box options are delivered every other week November—December and once a month January through April.

Every winter is different and we cannot predict how the weather will treat us. Some deliveries need to be rescheduled depending on the road conditions or other weather related occurrences. Normally in November and December you will receive a lot of fresh produce along with storage style crops. After January the box changes to mostly roots and if we are lucky, some micro greens and mushrooms. In April the box includes more greens again. We plant greens and oyster mushrooms for the entire winter delivery but cannot promise them in the really cold days. If you want some really great local and seasonal vegetables all winter this is for you! **Many past members rave about the full boxes of quality produce.**

"My family is very excited to participate in your CSA. We have tried about 4 others and nothing compares to the variety and quality of produce from Tree of Life. Thank you for coming back to Oak Park! ~Janna"
